

BACKCOUNTRY 3.0

TREKKING POLE

Ref. 3221

Telescoping 3-segment aluminum alloy trekking poles

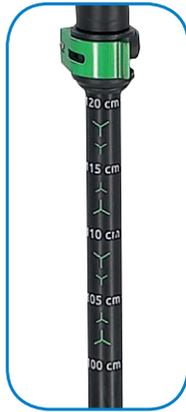

Fast and secure locking system with an aluminum alloy clip makes adjustment quick and easy

Extendable from 65 to 135 cm

Graduated lower segments for easily setting the correct length

Soft foam grips are ergonomically shaped for all-day comfort. The top of the grip uses dense, grippy rubber for enhanced control and greater resistance to wear and tear.

Wrist loops are differentiated for right and left hands for optimal comfort and are quickly adjustable thanks to the clips integrated in the upper part of the grips.

Carbide tips for the best traction and durability. Rubber tip protectors included.
